Wireless PIR Sensors.
No messy wiring.
Self monitoring.

Shock sensors, switches,
door contacts, pressure mats.

External Siren / Beacon
with time out control

Bilge Level Sensor can be
used to control a pump

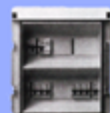

Battery Voltage monitor
comes as standard

CO2 and Smoke Alarm
sensors

Remotely control the lighting
on your boat

Check the shore power
supply is connected and OK

Monitor the temperature
both inside and out

Switch on your fridge before
you arrive for a weekend's
boating

Control the heating system to
warm your boat before arrival

Get a regular status message
of all the inputs to the Text
Alert, wherever and whenever
you want

Using Wireless PIR and Shock sensors the SMS Text Alert can send a text message and trigger a local alarm when an intruder attempts to enter your boat. The shock sensors are mounted on external doors and trigger when an attempted break-in is detected. A local alarm can deter the potential intruder.

When an alarm is activated an SMS text message can be sent to up to 4 phones which can be mobile or your standard land line at home or work. The system can also control lighting, bilge pumps and heating systems using commands from your mobile phone. The unit is supplied with SMS modem & SIM card, simply plug in and go.

The unit can be set up using most mobile phones, but is supplied with free PC configuration software which allows more complicated configurations.

An optional Marina Monitoring unit is available which allows a marina to monitor alarms from any boats fitted with a text alert system - a true marina security system.

SPECIFICATIONS

Supply	11.1V to 15V DC
Standard Unit	15mA (typ)
Wireless Unit	23mA (typ)
Basic Configuration	Text Alert Control Panel Battery Condition Monitor GSM SMS Modem and SIM Card 4 SMS Messages Messages sent to up to 4 phones 2 Digital Inputs / 1 Digital Output
Wireless Configuration	Wireless PIR, Shock Sensor, Keyfob
Expanded Configuration	6 Analog / Digital Inputs 3 Additional Digital Outputs
Typical SMS Message	Boat Alarm: PIR Intruder Detected 11:15pm 27/7/03
Dimensions (mm)	210 (w) x 112 (h) x 50 (d)
